

External roller shutter OVAL

- HEAT PROTECTION
- ANTI-THEFT PROTECTION
- LIGHT REGULATION
- DIMMING
- UV PROTECTION
- HEATING / COOLING SAVINGS

One of the most sophisticated mount-on visible shutters is definitely the OVAL shutter because its shape additionally contributes to a better exterior appearance. The oval box forms a completed whole with the shutters and the facade. The oval box is composed of three parts: rear, top, and front service panel, all of which are made of extruded aluminium, which adds the extra stiffness and a better appearance to the box.

MANIPULATION:

Manipulation is possible with automaton or electrical motor. For motor operation there is the standard PLUG & PLAY function, which allows the connection of several motors to a single switch, self-adjusting positions and the safety function in the event of an obstacle.
