External CONCEALED roller shutter 90° with ALU cabinet, closed on all sides. Bottom revision cover and insulation bracket made of thick-walled extruded aluminium, which ensures the compactness and durability of the cabinet. Cabinet comes with a brush that prevents insects from entering the room. The shaft is galvanized and mounted on aluminium end cap with ball bearings. Guiderrails are aesthetically finished with plastic ends and fixed brushes for quieter operation. Weighted end slats made from aluminium. Roll-up mosquito net including the brake for easier lifting.

MANIPULATION:

Manipulation is possible with automaton or electrical motor. For motor operation there is the standard PLUG & PLAY function, which allows the connection of several motors to a single switch, self-adjusting positions and the safety function in the event of an obstacle.
