

External roller shutter Quarter-OVAL

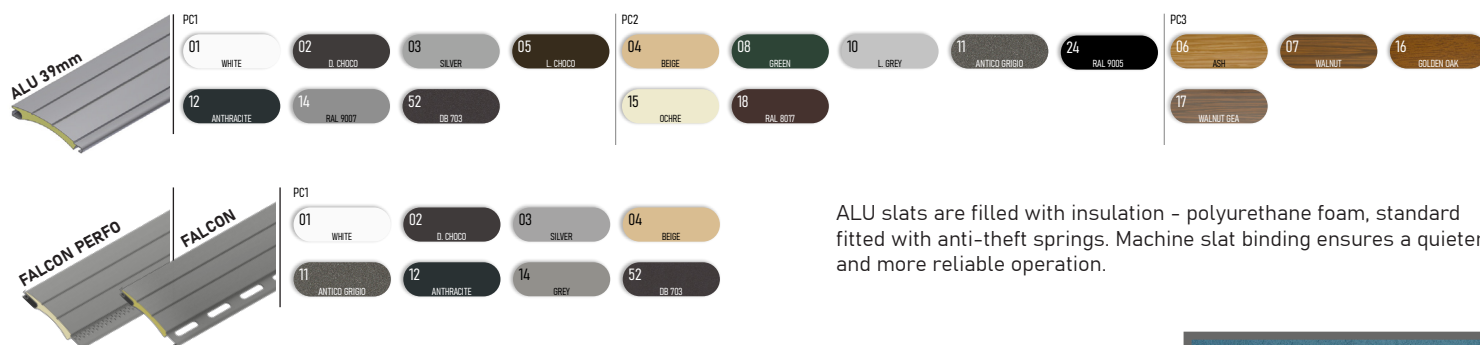

- **HEAT PROTECTION**
- **ANTI-THEFT PROTECTION**
- **LIGHT REGULATION**
- **DIMMING**
- **UV PROTECTION**
- **HEATING / COOLING SAVINGS**

If you want to embellish the external appearance of the building, we suggest mount-on external QUARTER-OVAL roller shutters.

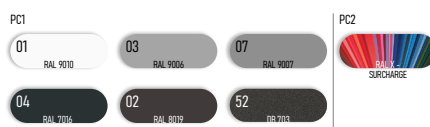

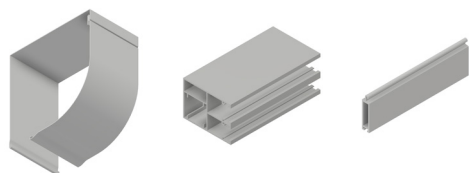

Roller box is composed of two parts (aluminium plate): the back part, which is the same in most of the shutters, and the front curved part, which also serves as a servicing panel.

WARNING: Certain colours on the chart may vary from original!

CABINET, GUIDERAILS, END SLAT | Color palette:

MANIPULATION:

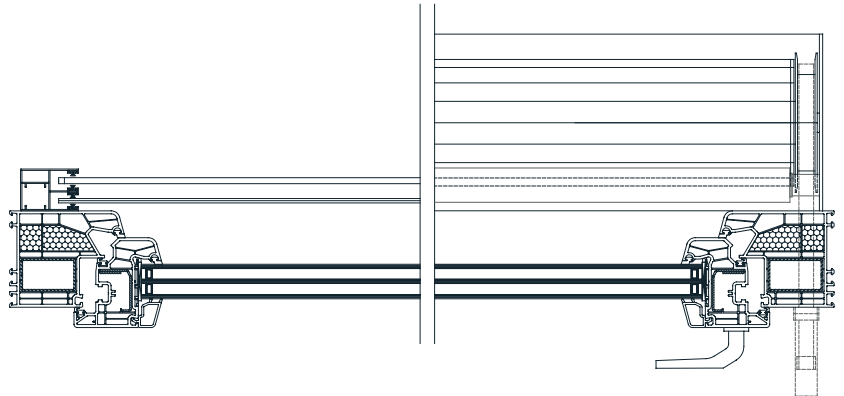

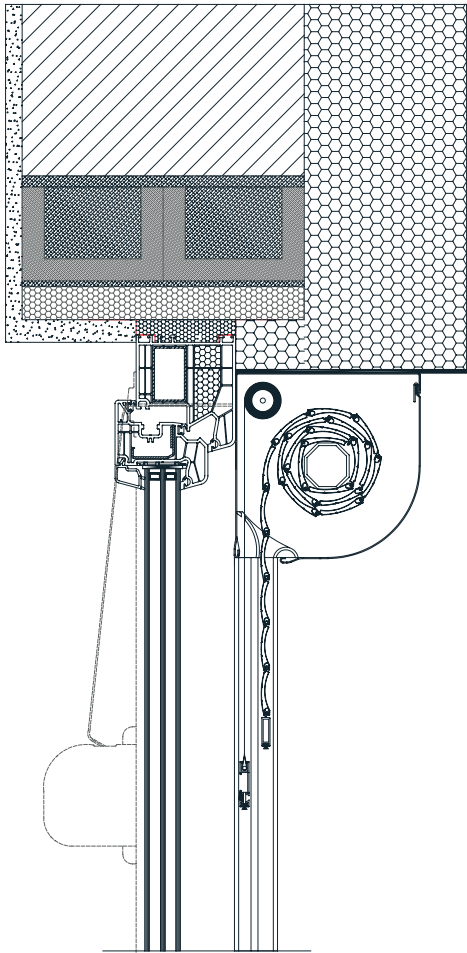

Roller shutters can be operated manually, while a motor drive provides greater comfort and ease of use. They can be controlled using switches or remote controls, also without any modifications to the walls, while control units enable automated and remote operation via a smartphone.
